

**Nordea**

# **Domestic payments via branches**

Tariff for corporate customers effective from 1 September 2020

## About the customer tariff

This tariff is applicable to domestic payment services provided by Nordea Danmark, Filial af Nordea Bank Abp, Finland, a branch of Nordea Bank Abp, Finland, "Nordea" or the "bank", in accordance with *Terms and conditions for payment accounts for corporate customers*.

All charges are in Danish kroner. The charges for services relating to payment accounts maintained in other currencies are converted at the exchange rate applicable on the date of the debit entry, see 4.1 of *Terms and conditions for payment accounts for corporate customers*.

If a cut-off time is stated for ordering payments etc, it means that the business day concerning the relevant payment service ends at the time stated.

The value dating rules in respect of creditors apply to Nordea. Other banks may have other value dating rules.

It is possible to effect payments faster and at reduced prices via the bank's office banking systems.

For information about international payments, see separate tariff.

**Definitions and specialist terms** Execution time is the number of days it takes to effect a payment transaction. Days mean business days, that is, the period within which it is possible to effect or receive a payment transaction. Business days in Nordea and other banks are not necessarily identical.

Day 0, 1 and 2 means business days.
