The Report of the Board of Directors of the Alternative Investment Fund Manager

The Alternative Investment Fund Manager (AIFM) has regular reporting responsibilities in accordance with the Alternative Investment Fund Manager Directive (AIFMD). The Fund is considered to be an Alternative Investment Fund (AIF) managed by the AIFM since 21 July 2014. The following matters are set out to provide users with an understanding of what reporting the AIFM makes to its regulator and where this information is disclosed or will be made available on request at the following address:

Aberdeen Standard Investments Luxembourg S.A., 35a, avenue John F. Kennedy, L-1855 Luxembourg.

The management company and the AIFM of the Fund is Aberdeen Standard Investments Luxembourg S.A. The Management Company is since 1 December 2015 a Supermando and thus a chapter 15 Management Company in accordance with the law 17 December 2010 and authorized under the law of 12 July 2013 on AIFM.

Furthermore, Aberdeen Standard Investments Luxembourg, acts as the Portfolio Manager of the Fund, providing it with the power to take discretionary investment decisions on behalf of the Fund as of 1 December 2015.

The Fund's life expired the day following the twelfth anniversary of the Final Closing date, on 3 February 2020. As at 3 February 2020, the Board of Directors of the AIFM approved the termination of the Fund, with a 31 months wind down period. The wind down of the Aberdeen Indirect Property Partners FCP-FIS (in liquidation) will be conducted in line with the contractual terms of the Fund and in the ordinary course of business. Aberdeen Standard Investments Luxembourg S.A. has been appointed as Liquidator of the Fund. During 2020 and 2021 agreements have been discussed on secondary sales of the remaining underlying investments in the Fund. One investment has been sold during Q2 2022, and one investment remains. Once the sales have been completed the Fund will be wind down.

COVID-19

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on the 11th March 2020, continues to impact many aspects of daily life and the global economy. On 11th November 2021, a new variant (Omicron), was detected in and led to a tightening of restrictions globally in an effort to manage the impact of this highly transmissible variant. The full impact and severity of disease caused by Omicron has yet to be fully determined and understood.

Many sectors of the real estate market saw positive capital growth during 2021 as global economies came out of lockdown and rebounded strongly. Travel, movement and operational restrictions were implemented, loosened and reimplemented to a lesser extent by many countries throughout 2021 and this pattern has continued into 2022. In some cases, "lockdowns" have been applied – in varying degrees – to reflect further 'waves' of COVID-19. While these may imply a new stage of the crisis, they are not unprecedented in the same way as the initial impact.

The pandemic and the measures taken to tackle COVID-19, including the development and roll out of vaccines and booster doses, continues to affect economies and real estate markets globally. Certain real estate sectors have been impacted harder than others with retail shopping centres and hospitality the hardest hit and logistics and distribution, residential and retail warehouses largely a beneficiary. The success of vaccine programmes continue to have a major impact on the speed and nature of economic recovery but the timing and form of the recovery remains uncertain, particularly with the emergence of new strains of COVID-19.

As at the reporting and valuation date, property markets are mostly functioning again, with transaction volumes and other relevant evidence at levels where enough market evidence exists upon which to base opinions of value. Thus, property valuations, as at the valuation date, were not subject to material valuation uncertainty. The AIFM is continuing to utilise business continuity and resilience processes with the objective of mitigating the impact of COVID-19.

Quarterly Investor Report

To support the investors in the Fund, the Portfolio Manager issues a Quarterly Investor Report separately to the Fund's Unitholders.

The Investor Report contains the following information:

- i) investment activities during the period,
- ii) the portfolio at period end,
- iii) the performance for the period,
- iv) material changes,
- v) Risk Management Report, and
- vi) Fund leverage.

The Quarterly Investor Report is available on request from the AIFM at the following address:

35a, avenue John F. Kennedy, L-1855 Luxembourg.

Closing and commitments

The Fund was launched on 4 February 2005 with a committed capital of EUR161,5 million followed by three subsequent closings in 2005 and 2006 representing additional commitments of EUR462 million, thus making the total committed capital at final closing on 3 February 2006 EUR623,5 million. In September 2013 the Fund decided to release commitments to investors by EUR49,1 million.

Secondary sales of the remaining underlying investment in the Fund is ongoing with an expected completion date during Q4 2022.

Investments

The Fund is fully committed and currently holds commitments to one underlying investments for a total of EUR30 million

¹⁾ The original cost of investment is the initial purchase price plus any capital drawn from the Underlying Investment and any expenses incurred in relation to the initial purchase of the assets.

²⁾ Cost of investment is the drawn capital plus acquisition costs less distributions from Underlying Investments clearly identified as return of capital.

³⁾ In accordance with the accounting policies of the Underlying Investment, where a portion of the distribution is clearly identified as a return of capital, it is treated as a reduction in cost of investment. Otherwise it is recognised as income with the corresponding effect on the unrealised gain or loss on quarterly revaluation of the investment. The distribution disclosed are since inception.

⁴⁾ Drawn Commitment means: the initial purchase price plus any capital drawn from the Underlying Investment.

⁵⁾ Commitment means the initial purchase price/commitment [as applicable] plus the initial undrawn amount plus any top up commitment less any released commitment.

⁶⁾ Unrealised gain/(loss) disclosed are since inception.

⁷⁾ Secondary sale has been executed, and the exit was finalised on 26 February 2021, with the result of a loss of EUR 11,260,559.99

⁸⁾ Secondary sale has been executed, and the exit was finalised on 15 June 2021, with the result of a gain of EUR 81,794.98

⁹⁾ Secondary sale has been executed, and the exit was finalised on 30 June 2022, with the result of a loss of EUR 10,139,546.69

The accompanying notes form an integral part of these financial statements.

Notes to the Semi-Annual Financial Statements

As at 30 June 2022

1. General information

Aberdeen Indirect Property Partners FCP-FIS (the Fund) is organised as a closed-ended “Fonds Commun de Placement” (FCP) - “Fonds d’Investissement spécialisé” (FIS) under the Luxembourg law of February 13, 2007 as amended on Specialised Investment Funds (the SIF Law), the securities of which are not intended to be placed with the public. The Fund was incorporated on 27 January 2005 and regulated by Management regulations entered into force on 27 January 2005. The Fund became an AIF on 21 July 2014 and Management Regulations were amended on 22 July 2014, 2 March 2015 and 1 December 2015.

The AIFM is organised as a société anonyme under the laws of the Grand Duchy of Luxembourg and was constituted by notarial deed dated 20 September 2006 and amended on 21 July 2014. The AIFM has been incorporated for an undetermined period and is registered under number B 120637 with the Luxembourg Trade and Companies Register, where its articles of incorporation may be inspected. The issued capital of the AIFM is EUR 10,000,000 divided into 100,000 shares of a par value of EUR100 each, fully paid up.

The Fund is a Euro (EUR) denominated property fund of funds vehicle which will invest in funds investing in European property. The overall objective of the Fund is to pool together likeminded institutional Investors to create a well-diversified property exposure across Europe. The total number of underlying investments is expected to be in the region of 8-15 and diversification will be achieved by investing in different property funds by:

- Sectors
- Countries and cities
- Managers
- Investment styles
- Time periods

The Fund may issue, subject to the terms of the management regulations, the subscription agreement and the prospectus, several classes of units with different characteristics. In particular, the Fund issues the following classes of units (registered units only):

As at 30 June 2022, the Fund has issued the following classes of units (registered units only):

- Class A1 units are issued to Investors making commitments of less than EUR40 million in the Fund;
- Class A2 units are issued to Investors making commitments between EUR40 million and EUR75 million in the Fund;
- Class A3 units are issued to Investors making commitments of EUR75 million and more in the Fund.

Class A1 units, Class A2 units, Class A3 units or any newly issued class of units are automatically switched to units in the next class if by way of transfer, redemption or subscription the relevant threshold of a class is reached.

Subscriptions of several Investors pertaining to the same group of companies may, with the prior approval of the AIFM, be accumulated for the purpose of the calculation of a relevant threshold, provided the relevant Investors have appointed and made known a common representative who has the power to act for all such Investors.

The Net Asset Value per unit is expressed in EUR and is calculated up to two decimal places.

The Fund's life expired the day following the twelfth anniversary of the Final Closing date, on 3 February 2020.

As at 3 February 2020, the Board of Directors of the AIFM approved the termination of the Fund, with a 31 months wind down period. The wind down of the Aberdeen Indirect Property Partners FCP-FIS (in liquidation) will be conducted in line with the contractual terms of the Fund and in the ordinary course of business.

Aberdeen Standard Investments Luxembourg S.A. has been appointed as Liquidator of the Fund. The present financial statements have been prepared on a non-going concern basis and liquidation provisions have been recorded for a total amount of EUR332,000 as further detailed on note 12.

2. Accounting policies

The financial statements are prepared in accordance with Luxembourg laws, practice and regulatory requirements relating to investment funds, including the following significant accounting policies:

a) Valuation of investments

Securities of underlying investments' or other assets which are listed on a stock exchange or dealt in on another regulated market will be valued on the basis of the last available publicised stock exchange or market value. Underlying investments or other assets which are not listed on a stock exchange nor dealt in on another regulated market will be valued on the basis of the probable net realisation value estimated with prudence and in good faith by the Board of the Fund. If a Net Asset Value (NAV) is determined for the units or shares issued by an underlying investment the following shall apply: the shares or units of or any other interest in the underlying investment are valued at their last known and available NAV. In case of the occurrence of a valuation event that is not reflected in the last known and available NAV of the shares/units of or other interest in the underlying investments, the latter may be adjusted taking into account such valuation event. The underlying investments' NAV's could be accounted for using other GAAP standards than the Fund's GAAP standard. If nothing else is stated in the Fund documentation the Fund will use the NAV under the GAAP standard used by the Fund in the first instance or if this is not available, the Fund will use the NAV under the standard that best reflects the fair value of the Fund's holding, it being according to European Association for Investors in Non Listed Real Estate Vehicles (INREV), International Financial Reporting Standards (IFRS) or any other accounting standard. As the result of the quarterly accounts being prepared on a basis other than going concern, the valuation of the investments reflected the net realizable value of the assets as of the reporting date. Such net realizable value close to the fair value of the assets as of the reporting date.

b) Conversion of items expressed in foreign currencies

The Fund maintains its accounting records in EUR and its financial statements are expressed in this currency.

All assets and liabilities in currencies other than EUR are translated into this currency at the exchange rates prevailing as at the end of the financial period.

Income and expenses in currencies other than EUR are translated into this currency at the exchange rates prevailing at the transaction date.

The resulting profits and losses are included in the realised gain / (loss) on foreign currency transactions in the Income Statement. Exchange differences arising as part of the valuation of investments are recorded as part of the unrealised profit / (loss) on revaluation of investments.

c) Set-up costs (formation expenses)

The set-up costs were capitalised and have been fully amortised.

d) Realised gain / (loss) on disposal of investments

Realised gain / (loss) on disposal of investments is the difference between the cost of investment and the sale proceeds. The cost of investment is defined as the original cost plus acquisition expenses less distributions received from underlying investments which are clearly identified as a return of capital.

The capital call transactions for the underlying investments are recorded at the date they are due to be paid.

e) Unrealised gain / (loss) on revaluation of investments

Unrealised gain on revaluation of investments at the end of the financial period is accounted for in the Income Statement under caption "Unrealised gain on revaluation of investments" and unrealised loss on revaluation of investments at the end of the financial period is accounted for in the Income Statement under caption "Unrealised loss on revaluation of investments".

There could be cases where there is a major unrealised loss on investments shown on an individual line while in fact no losses are made. The unrealized loss is considered against the unrealized gain and hence if the sum of both is negative the fund will have an unrealised loss on revaluation of investments and if the sum of both is positive, it is a gain.

f) Recognition of distributions and interest income and expense(s)

Distributions from underlying investments are recognised in the accounting period to which their earnings relate provided that the Fund's right to receive payment is established. The recognition of the origin of the capital distributed is made through the distribution notice provided by the underlying investment. In case the information is not clear in the notice the underlying investment is asked to provide additional information to enable classification. These distributions are recognised as income unless they are clearly identified as return of capital. In accordance with the accounting policy of the Fund, where a portion of the distribution is clearly identified as a return of capital, it is treated as a reduction in cost of investment. Otherwise, it is recognised as income with the corresponding effect on unrealised gain or loss on quarterly revaluation of the investment. Interest receivable or payable is reflected as income or expense on an accrual basis.

g) Deferred income

Distributions received from the underlying investments classified in the distribution notice as both income and callable under the related underlying investment agreements have been recorded as deferred income until recalled by the underlying investment or no longer subject to recall. The uncalled commitment of the related underlying investment is increased by these amounts.

3. Acquisition expenses (underlying investments under evaluation)

Costs specifically linked to the commitment to an underlying investment (such as costs for tax and legal due diligence, set-up of a fiduciary trust etc.) shall be booked as an acquisition cost for that investment and capitalised by being added to the cost of investment for that underlying investment.

In the period prior to a final investment decision being made, the costs will be capitalised as a separate asset. On the final investment decision, if the Fund proceeds with the commitment, these costs will be added to costs as detailed above. If the decision is made not to enter into a commitment with the underlying investment, the costs will be immediately expensed through the Income Statement. The accounting treatment of these costs is further detailed in Note 12 Liquidation provision as the quarterly accounts are prepared on a basis other than going concern.

4. Management Fees and Advisory Fees

The AIFM during the term of the fund is entitled to receive the management fee (together with any applicable value added tax), payable monthly in arrears out of the assets of the Fund at the end of each calendar month and being calculated on the basis of the capital committed in underlying investments until the final assets are liquidated and the underlying investment is terminated.

The management fee is paid out of the assets of the class of units to which it relates and calculated at the rate of:

- i. 0.65% per annum of the Fund's total commitments in underlying investments attributable to Class A1 units, or
- ii. 0.55% per annum of the Fund's total commitments in underlying investments attributable to Class A2 units; or
- iii. 0.45% per annum of the Fund's total commitments in underlying investments attributable to Class A3 units.

In any case, there will be a Minimum Management Fee of EUR200,000 per annum.

The AIFM may reallocate a portion of its management fees to distributors, dealers or other entities that assist the AIFM in the performance of its duties or provide services, directly or indirectly, to the Fund or its investors, and to a holder or prospective holder of units on a negotiated basis in a private arrangement. The Investment Advisor will be paid by the AIFM out of the Management fee and Performance fee.

For the period from 1 January 2022 to 30 June 2022, there are no management fees charged to the Fund (30 June 2021: EUR50,004) with no outstanding amount payable as at the end of the period (31 December 2021: Nil). The management fee is included in the Liquidation provision as further detailed in note 12, as the quarterly accounts are prepared on a basis other than going concern.

The Management Company was approved as the liquidator of the Fund by the CSSF as per the 3rd of February 2020. It was determined to be reasonable for the management fee to be payable as long as there remained assets requiring management in the Fund, which was the case at the commencement of the liquidation. Consequently, management fees have been accrued and paid until 15 June 2021.

All fees are exclusive of any VAT, which, if applicable, shall be paid in addition.

5. Taxe d'abonnement

The Fund is subject to the fiscal legislation of Luxembourg.

Under the prevailing laws and regulations, the Fund is subject to an annual subscription tax of 0.01% per annum of its total net assets, calculated and payable at the end of each quarter.

No subscription tax is paid on the assets held by the Fund in other UCIs already subject to that subscription tax in Luxembourg.

The accounting treatment of these expenses is further detailed in Note 12 Liquidation provision as the quarterly accounts are prepared on a basis other than going concern.

6. Units

During the initial offer period units were issued at the initial subscription price of EUR10. After the final closing, units will be issued at the Net Asset Value per unit on the latest known NAV.

The net asset value per unit is determined by dividing the value of the total net assets of the Fund by the total number of units of the Fund outstanding on such valuation day.

7. Distribution to investors

Give back obligation applies a) when an underlying investment has distributed capital to the Fund earmarked as recallable and this has further been distributed to investors as recallable and b) when the Fund due to article 15 in the PPM has earmarked distributions to investors as recallable.

The Fund has declared the following distributions:

Date	Total EUR
4 February 2005 - 31 December 2011	53,243,156
10 April 2012	3,229,396

8. Commitments to underlying real estate funds

As at 30 June 2022, the Fund has committed a total of EUR30 million (31 December 2021: EUR75.5 million) in its underlying investments. The undrawn commitments to underlying investments amount to EUR9.7 million (31 December 2021: EUR 9.7 million). As a result of the ongoing secondary sales of the remaining underlying investment the undrawn commitment in underlying investment will not be drawn. All undrawn capital on investor level will be released at the closing of the liquidation of the Fund.

9. Unitholders' commitments

As at 30 June 2022, the unitholders have a total commitment of EUR574.4 million (31 December 2021: EUR574.4 million) to the Fund. From inception, EUR549.9 million (31 December 2021: EUR549.9 million) was drawn at the period end.

10. Realised gain/(loss) on investments

The realised gain on investments for the period from 1 January 2022 to 30 June 2022 was as follows:

	30 June 2022	30 June 2021
	EUR	EUR
European Property Investor LP	-	187,256
Alternative Property Income Venture SCA	-	81,795
Total	-	269,051

The realised (loss) on investments for the period from 1 January 2022 to 30 June 2022 was as follows:

	30 June 2022	30 June 2021
	EUR	EUR
Frogmore Real Estate Partners LP	-	(11,260,560)
Carlyle Europe Real Estate Partners III	(9,583,306)	(199,048)
Total	(9,583,306)	(11,459,608)

11. Opening cash balance

The opening cash balance amount as at 1 April 2022 was EUR6,345,148.

12. Liquidation provision

As at 3 February 2020, the Board of Directors of the AIFM approved the termination of the Fund, with a 31 months wind down period. For this reason a provision has been made for all costs anticipated to be incurred as part of the liquidation process. This represents management best estimates.

	30 June 2022	30 June 2021
	EUR	EUR
Audit fees	9,000	22,931
CSSF Liquidation fees	18,820	10,040
Liquidator fees	19,890	-
Publication fees	351	2,340
Management fees	-	16,667
Legal fees	-	12,372
Operating fees	283,939	375,743
Total	332,000	440,093

13. Underlying funds updates

There is only one underlying fund remaining in the portfolio, which is advanced in its liquidation plans. European Property Investors LP has no real estate asset left as at 30 June 2022 and it is expecting to complete its liquidation in the fourth quarter of 2022. Once we have received confirmation that its liquidation has completed, we will seek to liquidate AIPP's fund structure during the first half of 2023. After all expenses have been paid the remaining liquidation provisions will be paid out to investors and all units in the sub-fund will be redeemed.

14. Subsequent events

Post the Balance Sheet date, on 24th February 2022, Russia launched a military operation in Ukraine resulting in widespread sanctions on Russia and heightened security and cyber threats. As at the date of the report the Fund did not hold any assets in Ukraine or Russia. The Fund's key suppliers do not have operations pertaining to the Fund in Ukraine or Russia. The situation in the region is rapidly evolving and the AIFM continue to monitor the situation carefully and will take whatever steps are necessary and in the best interests of the Fund. This includes but is not limited to ensuring that the requirements of all international sanctions are adhered to, managing the assets of the Fund proactively to best mitigate risk and ensuring that the AIFM and other key suppliers continue to operate all protections, protocols and monitoring of heightened cyber threats. At the time of writing, there is not expected to be any significant long term adverse impact from the military operation in Ukraine on the assets, operational activities, processes and procedures of the Fund.

On 7th September 2022, a distribution to investors has been made for an amount of EUR5,105,525. Moreover, due to KYC purposes, one investor payment is still outstanding.
