(applicable from 15 June 2024)

The Conditions for Konto-kik Erhverv – with users apply between the customer and Nordea Danmark, filial af Nordea Bank Abp, Finland (the “bank”).

The customer can get online access to Konto-kik Erhverv – with users at the bank on several different devices, for example via the browser on their computer (Konto-kik Erhverv) or via apps on their smartphone or tablet (Nordea Business Mobile). Read more about the customer's options at nordea.dk/nordea-business.

1. What can Konto-kik Erhverv be used for?

1.1 Scope of the user's access

In Konto-kik Erhverv the customer can give one or more users access to information about the customer's accounts, deposits, loans, credits, custody accounts etc. with the bank. This is done by the customer filling in a special appendix when the agreement is entered into.

Before the customer can give the user access to Konto-kik Erhverv, the user must give consent to the user's personal registration (CPR) number being passed on to the bank to identify the user.

The customer for example gives the user access to the following information about their commitment:

- Account details (for example balance, transactions and interest rates) for all the customer's existing and future accounts, deposits, loans, credits etc. with the bank.
- Card details (for example balance, transactions, card type, expiry date) for all the customer's existing and future debit cards and credit cards issued according to agreement with the bank.
- An overview that may include various details about guarantees and other financial services approved by the bank.
- The value of the customer's custody accounts with associated cash accounts, pension-related custody accounts with associated pension accounts as well as relevant trades and transactions on the mentioned custody accounts and accounts.
- Mortgage loans with Nordea Kredit.
- Electronic mail and chat communication, which the customer – or another user on behalf of the customer, for example via Nordea Business with users – has exchanged with the bank, as well as agreements, documents and archives, for example account statements and direct debit statements
- The user may be notified of changes to the conditions etc. relating to the customer relationship.

If the customer as part of their personal commitment currently has or in future will have jointly owned accounts, deposits and loans, custody accounts etc. or a power of attorney for accounts, deposits and loans, custody accounts etc., the user will not have access to information about these, and the user's access to agreements, documents and archives as well as mail and chat records will be closed.

The features available via Konto-kik Erhverv are described at nordea.dk/nordea-business.

The user has online access to Konto-kik Erhverv around the clock every day of the year.
